Draft Erasure Proposal

Misdemeanor offenses shall be erased automatically from an individual's record when five years have passed since the individual's most recent misdemeanor or felony conviction.

Questions:

- **The procedure for erasure**
 - Which agencies would be responsible for ensuring erasure?
 - Will individuals be notified that their convictions have been erased? How will notice be provided?
 - What technological challenges may exist?

- **The effect of erasure**
 - Should some entities have access to the records for certain purposes even after erasure?
