Re: November 21, 2013 Sentencing Commission ^{Public} Hearing.

Dear Commission Members:

My name is Charles Fraizer, and I myself am someone who may be affected by this proposal. I do appreciate the sentencing commission recognizing the importance of public input, and too, its interest in learning the views and opinions of those persons such as myself who may be affected by HB-6581, file no 849.

In respect of this proposed bill, and in light of the fact that I am an offender who was under the age of 18 at the time of committing my crime. I can tell the commission members that at the mere age of 18, I not only lacked maturity, but

I possessed an ~~und~~ underdeveloped sense of responsibility to which reduced my competency to appreciate the risk or consequences of MY reckless and having to serve a 28 years sentencing I in connection with my action, I believe that I demonstrate the need and capacity for change and Rehabilitation. I have a strong work history and have shown an interest and desire to get on the right path in the time since my crime was committed. I have an impressive familial support base and given these facts among others, It is unlikely that I will committ future crimes in that I am no longer vulnerable to negative influences or other pressures that might of played a role in the crime that committed.

Very truly yours,
Charles Fraizer
