Dear Sentencing Commission,

On September 23, 2013 I was sentenced to (8) eight years for 2nd degree manslaughter with a fire arm. The penalties ranged from (1) one year to (10) ten years. Because this was my first offense ever, I thought the sentence quite harsh.

My attorney told me that no one keeps statistics on crimes and sentences. I said someone keeps statistic on everything and recently ran into your name and address.

If you do keep this kind of information please send me the results. If not please steep me in the direction of someone who might.

Thank you,

Will D. Fay
